

teleskopy.pl

Robust roof binoculars in an area with classic parameters 8x42. Good coatings on all elements of the optics are a guarantee of the depth of reproduction and brightness of the images obtained. High resistance to weather conditions (O-rings and nitrogen filling) and resistance to mechanical damage (rubberizing) ensure the longevity of the binoculars. This is a very interesting proposition for beginners and intermediate admirers of bird and nature observation. Includes a neck strap, lenses covers and glasses, and a carrying case with a belt

Technical parameters

- Lens diameter: 42 mm
- Zoom: 8x
- Exit pupil: 5.2 mm
- Construction of prisms: roof
- Optical system: 8 elements in 6 groups
- Material of glass elements: Optical glass Bak-4
- Field of view: 149 m / 1000 m
- Retracting the output pupil: 17 mm
- Minimum distance of observation: 2 m
- Twilight factor : 17
- Adjusting for eye defect: +/- 4 D
- The scope of adjustment of the spacing of pupils: 55 - 73 mm
- Eyecups: adjustable, twist-up type
- Waterproof: yes, up to 1 m to 30 minutes
- Anti-reflective layers: FMC (Fully Multi-Coated), PhC (Phase Coating - phase coatings on prisms)
- Weight: 710 g
- Usage astronomy hunting planes nature scenery
- Warranty 5 years
