Vixen Atrek 10x32 is a high-end daytime nature binoculars with very good mechanical performance and excellent optics. A good choice for bird watching, nature, as a lightweight binoculars. Optics Lenses and prisms made of BaK4 Premium class glass and all glass-air surfaces covered with FMC coatings provide clear, contrasting, color-free, distortion-free images. All Vixen Atrek series binoculars have a small minimum sharpening distance - on the order of 1 - 1.5 meters. Mechanics The binoculars were made of the highest quality materials. The rubberized body protects the binoculars' optics even when used intensively, and at the same time provides a secure grip. The sharpening system is very precise and reliable. Internal focusing eliminates any problems with clearance on the spectacle bridge, found in many other binoculars. A large offset of the exit vortex, in conjunction with the adjustable twist-up eyecups, enables comfortable long observation. It also ensures no loss in the field of vision with prescription eyeglasses. Additional features The binoculars are filled with nitrogen, fog-proof (fogproof) and flooding / immersion in water (waterproof). Includes a neck strap, lenses covers and glasses, and a carrying case with a belt Technical parameters ∅ Lens diameter: 32 mm ∅ Zoom: 10x ∅ Exit pupil: 3.2 mm ∅ Construction of prisms: roof ∅ Material of glass elements: BAK-4 optical glass ∅ Anti-reflective layers: FMC, green ∅ Retraction of the exit pupil: 18 mm ∅ Field of view: 96 m / 1000 m ∅ Minimum distance of observation: 1 m ∅ Twilight efficiency: 17.9 ∅ Dimensions: 110 x 118 ∅ Weight: 300 g Usage scenery nature hunting planes military Warranty 5 years ADDITIONAL MATERIALS READ : WE CHOOSE THE TUBE - TIPS [PDF] READ : A SHORT OPTICAL CLEANER GUIDE [PDF]
