Solo Tactical R / T 8x36 by Vortex is a handy monocular allowing for comfortable observation of the area. The monocular is equipped with an adjustable Vortex R / T Ranging cross, which allows you to very accurately estimate the distance from the target or check the accuracy of the shot. The handy clip gives us the opportunity to attach the Solo monocular to a belt or tactical vest. Multilayer lens, provides better transmission of light. All this in a durable, waterproof, lightweight and compact housing. Multi-layer optic cover Very good layers, which cover the monocular optics, significantly increase the transmission of light. Layers were applied to all glass surfaces of the monocular. Thanks to the use of seals, both moisture, dust and dust do not get into the center of the device. Rubberized housing Provides a good grip, thus reducing the risk of the device slipping from the palm of your hand. Clip This simple solution will allow you to attach the monocular at the belt, backpack or tactical vest. Cross Vortex R / T Ranging Quickly track, rate distance and observe your goal.
