Binoculars Tamed 8x42 WP ED is a combination of a modern, ergonomic body, waterproof construction and great optics. Binocular prism binoculars with BaK-4 optical glass prisms with high optical efficiency and very good anti-reflective MC layers guarantee good contrast and visibility even in difficult light conditions. The binoculars are equipped with retractable eyecups that cut the side light and impose the optimal distance of observation for people watching without glasses. People using binoculars with spectacles will appreciate the convenient removal of the eye-relief pupil. Comes with a neck strap, lenses covers and glasses and a case attached to the belt of trousers. Technical parameters

- â€¢ Lens diameter: 42 mm
- â€¢ Zoom: 8x
- â€¢ Output: 5.25 mm
- â€¢ Construction of prisms: dachpryzmatyczna
- â€¢ Glass prisms: Optical glass Bak-4
- â€¢ Water resistance: yes, to the depth of 1 meter to 10 minutes
- â€¢ Anti-reflective layers: MC, green
- â€¢ Possibility to connect to a tripod: yes (required narrow L-adapter)
- â€¢ Field of view: 6 ° / 105 m / 1000 m
