Levenhuk Wise monoculars are proof that worthy observation equipment can be made for very moderate money. The quality of the telescopes of this series (8x32, 8x42, 10x42) is surprising - we get solid, mechanically well and optically good telescopes - with adjustable eyecup, tripod mount (models with 42 mm lens), Bak4 prisms and fully coated ? optician. The Levenhuk Wise 8x42 monocular is the perfect combination of significant magnification, compact size and reliable design. The device has excellent optical parameters, which will surely prove useful in many situations. Levenhuk Wise 8x42 is perfect when observing outdoors, in an urban landscape and not only - thanks to it, you can see exactly any distant object. During long-term observations, monocular can be mounted on any tripod with a standard 1/4 "thread. The design of this model uses a glass roof prism and a multilayer lens coating; The result is a high quality image with a high brightness. Thanks to the 8x magnification, you do not have to worry about the instability of the image, even when using the monocular while holding it in your hand. Levenhuk Wise 8x42 also minimizes the negative effects caused by the natural hand tremor. The Levenhuk Wise 8x42 model has a special protective coating to suppress vibrations. It protects all elements of the optical system from dust, splashes, shocks and impact or fall. The large focus adjustment knob allows you to conveniently adjust the image with one hand. If necessary, it is also possible to adjust the length of the eyecup and set it back to the starting position. Technical parameters • Zoom: 8x • Lens diameter: 42 mm •

Output: 5.25 mm â€¢ Retracting the output pupil: 18 mm â€¢ Prism: roof, BaK4 â€¢ Field of view: 110 m / 1000 m / 6.3 ° â Layers: FMC â€¢ Minimum distance of observation: 3 meters â€¢ Tripod mount: yes, 1/4 inch â€¢ Dimensions: 160 x 71 x 54 mm â€¢ Weight: 350 g Usage scenery birds shooting culture sport Warranty lifetime manufacturer's warranty, 2 years of shop warranty
