

teleskopy.pl

lens is 50 mm and the magnification from 18 to 36x, gives us a clear and transparent picture. Telescope housing covered with rubber to increase resistance and improve grip. The telescope is waterproof - tight, resistant to moisture, even immersed in water, it remains 100% intact. A special suitcase, 15 cm high and 39 cm long, is attached to the telescope. It is a professional suitcase filled with a layer of contoured sponge. It is locked with a key (two keys included). A strap for carrying the suitcase on the shoulder is also attached. The set also includes a table stand. This is a proposal for demanding nature observers, shooters, hunters and tourists. Impeccable optics with high light transmission, high satisfaction with the obtained images. Technical parameters

- â€¢ Lens diameter: 50 mm
- â€¢ magnification: 18-36x (zoom)
- â€¢ field of view: 38 m @ 18x, 25 m @ 36x (m / 1000 m)
- â€¢ Output diameter: 2.8 mm for 18x and 1.4 mm for 36x
- â€¢ length: 304 mm
- â€¢ weight: 708 g
- â€¢ producer: Bushnell, USA
