

The Nitecore 18650 Micro USB NL1834R 3400 mAh battery is a 3400 mAh battery with an innovative USB charging option. Just connect the battery to the micro USB cable using the built-in port. Two LEDs (green and red) inform the user about the battery level. Provides over 500 charging cycles. The battery replaces two CR123 batteries, but has a slightly larger length and width than they are. It is 100% compatible with Nitecore products, but may not match devices from other manufacturers. Warning! The kit does NOT include a micro USB cable. Technical parameters ∅ length: 69.8 mm ∅ diameter: 18.8 mm ∅ capacity: 3400 mAh ∅ voltage: 3.6 V ∅ charging voltage: 5 V ∅ charging current: up to 800 mA ∅ weight: 47 g
