Soligor 7x50 Night Vision binoculars are aspherical optics with very good visual field correction, high image brightness and contrast. The design minimizes the deposition of water vapor on optical elements. Porro prisms made of Bak-4 optical glass. Great hunting, astronomical binoculars for observation under a rural or dark suburban sky, iconic hunting binoculars, and universal nature binoculars. Includes a neck strap, lenses covers and glasses, and a carrying case with a belt

Warranty 2 years warranty

Warning! This device focuses a lot of light. Looking directly at the sun through this device can result in partial or complete loss of vision. For the observation of the Sun, we recommend the safest method of spectacle projection, that is, projecting the image of the target of our day star on a piece of paper.
